

The FREE Report, FREE Promotion Co-op

Congratulations from the desk of Gabe Killian!

This report explains in detail a very unique opportunity that doesn't come around very often. In fact, this is both extremely experimental and has the huge potential to bring you a variety of great benefits and income as long as you act on it.

So please take some time and read through this thoroughly as I will explain how this FREE opportunity benefits YOU and ME equally. In fact, such an opportunity doesn't come around very often so I sincerely suggest you don't let this pass you by.

Free reports, e-books, audios, videos or any other information products are an extremely valuable tool in Internet Marketing, below are just a few benefits of producing such info products:

- Credibility and Branding – Making a name for yourself
- E-mail List Building
- Traffic Generation
- Viral Marketing
- Back End sales
- HUGE affiliate sales
- ... and SO much more!

When you give something away for free, it entices your visitors to communicate with you and helps you build trust which any smart Internet marketer KNOWS how crucial trust is in online business.

Here is my plan to help YOU with ALL the above benefits listed above!

I want you to create your free info product in which I plan to host on my website at www.Inferno-Marketing.com and perhaps a variety of other places on the web which get a significant amount of traffic.

Your info product can contain affiliate links, links to your website, help you build your list, offer a particular product or service, or just useful information with the intent of further branding yourself as an expert in your field. It can be text (e-books, reports, etc), audio or video. It can be as large or as small as you want, it can be about whatever you want it to be about (however it is best that it is in the topic be within the making money, success, or Internet marketing niche).

Now here is where it gets EXCITING!

As far as the Co-Op goes, together we will promote this website with a very minimal amount of work giving hundreds of people exposure to your informational product along with others. For example, if 20 of us write only 1 article a week and submit it to only a few websites, we cooperatively we can have 80

articles floating around the web DRIVING MASSIVE AMOUNTS OF TRAFFIC to our informational products.

IT GETS EVEN BETTER!

Along with driving traffic to your info product from my site and other sites, I will also add a website link of YOUR CHOICE in the website which will further drive traffic back to you (Note: The website will have to be approved, for example - no adult content, etc.)

BUT IT DOESN'T STOP THERE!

For those who do the most amount of promoting of the co-op website (I will ask for proof of course), I will work with them in promoting their product or service to MY E-MAIL LIST for ABSOLUTELY FREE! Depending on the amount of people taking part in this partnership, I may do 5,10 or more of these mass e-mailings reaching hundreds of people!!!! My friends, this is a very valuable opportunity without a doubt!

SO WHATS IN IT FOR ME (Gabe)?

Well, I get to build my list too. In addition, I get extra traffic to my website and get to meet some potential future partners to do business with.

With that being said...

EVERYONE WINS! ESPECIALLY YOU!

In this free info product you create, you may also add "giveaway rights" as well. This gives those who obtain your book an incentive to give it away again to their visitors and subscribers which gives your product even more exposure and drives even more traffic to your website!

So what are you waiting for? Start creating your info product right now! I will be announcing very soon when I will be accepting submissions.
